

Creators of SOLAN

So much to talk about!

Two weeks have already passed and we've already done so much. Let's check it out!

Morning Glories

First of all, your morning glories. Just like you, they are growing and growing. It's been so rainy recently that it was difficult to observe them. However, now that the rainy season is over, we can observe them clearly. Aren't they beautiful?!

Soccer Boxer!

We finished our unit on "Kicking the Ball" for P.E. class. We had some exciting games, didn't we? There were lots of great plays and good team work. Let's keep it up for our next unit, "Throwing the Ball".

A New Game?

This isn't P.E. class, but you definitely get lots of exercise during recess and lunch break. How many dragonflies can you see? How many dragon flies can you catch? How can you run for 10 minutes without stopping!

Doesn't it remind you of Harry Potter? 😊

An Ear for English!

Close your eyes. Listen carefully! Can you hear the 'r' sound? Your listening and speaking during English class is getting better everyday! Great concentration!

Really, really, wonderful!

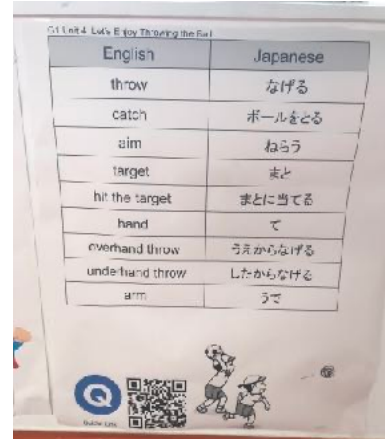

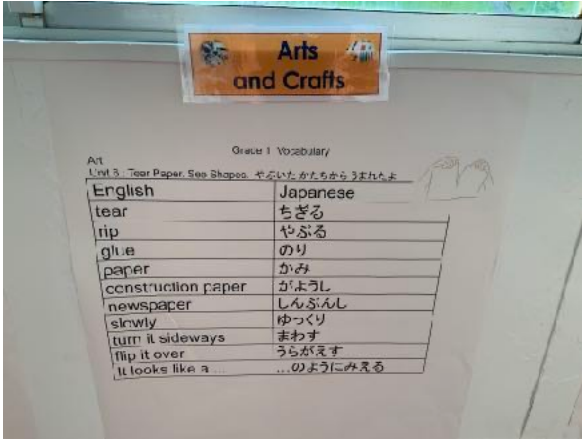

I See T! (T as in Tayasui)

This week, you started learning about Tayasui Sketches. I'm excited to see the wonderful art work you will create, and what kind of emoji's you will design in the future. Let's keep those pencil's charged, and ideas flowing!

Word Walls

The new vocabulary list is ready! Check it out! We also added a QR code so you can listen and practice a few of the words through Quizlet. It is an internet flashcard system. Try it out and tell me what you think.

We hope it's a fun way to help you remember new words that you may see and hear during class. 😎

That's all for now. There is more to talk about, but I'll save it for another blog.

Remember to drink lots of water during these hot days and wear a hat during recess. We don't want heat stroke. 😓

Have fun. Play safe. Be good!

Mike
