

Shining Achievers

Shining Swimmers

In the last week of August, our first grade students began the swimming unit in P.E. Class which much excitement! While Aichi summer is still hot, our students have a fun way to cool off. On a weekly basis, each class attends lessons at Nagoya Gakuin University where the swimming instructors have helped everyone develop their skills. Some students are new to the water while others are finding new ways to move through the water. Everyone is learning at their own pace, but overall, the students all understand pool safety and how to cooperate with each other. All three classes have tried their best to kick their legs, float on their back, touch the bottom of the pool, and move forwards. We will continue to practice these skills throughout September and then move on to preparing for Solan's Sports Day Festival! Keep up the great work everyone!

8月にプールの授業がはじまり、全てのプール授業が無事に終わりました。こどもたちは笑顔で楽しく、プールの授業をすることができました。2年生になったら、またプール活動があるので楽しみにしててくださいね！
