English Project: A Fun-Filled Language Adventure

By Ms. Anne

The recent English project, themed around friendship, provided an exciting opportunity for our grade 1 students to interact with peers from classes 1, 2, and 3. This initiative proved to be highly beneficial, allowing students to get to know each other while having a great deal of fun!

The most remarkable aspect was that students naturally used the English phrases they had learned in our classes, seamlessly integrating their language skills into conversations without even realising it.

As English teachers, we were thrilled with the outcomes and are motivated to continue organising such activities. Our goal is to keep fostering a fun and engaging environment that inspires students to confidently use and enjoy speaking English.

1-1 Mercury

By Mr. Brian

Students have been enjoying a variety of classes and learning so many different skills! In English, we have been learning many new sounds in phonics and putting them together to make many new words. In P.E., we enjoyed building up our bodies by doing an assortment of tetsubou exercises like tsubame, dango-mushi, buta no maruyaki, and mae no mawari!

1-2 Neptune

By Ms. Anne

Students have been expanding their vocabulary with words related to classroom objects and nature. We have engaged them in enjoyable activities where they ask and answer questions with their peers, utilising the phrases and words they've learned. It's wonderful to see their motivation and efforts to communicate in English.

1-3 Polaris

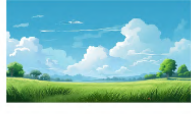

By Mr. Oliver

This month we have been working hard on our phonics and have already learned the first 12 sounds! In Life Studies everyone planted a Morning Glory and we have been enjoying observing how they grow.

Practise at Home!

Vocabulary

 sun	 mountain	 ocean	 clouds	 sky
 bush	 river	 grass	 flower	 butterfly
