New Friends, Future Plans

It feels like something special happens every week here, and this week was special, too. It was great to have the five students from Kushiro stay with us all week!

I was so happy to see how excited you all were to welcome them. It was clear you had a great time together. I saw many new friendships being made, and old friendships got stronger. Things like this are very important. They are not just fun; they are a real chance to make connections. It's also good to hear what visitors think. Hearing their thoughts on SOLAN shows us that our school is a special place.

On top of that, today was Halloween! It was great to see all the cool costumes and to see everyone enjoying the event. It was a really fun day.

Next year students will plan the Halloween event, not the teachers. When you think about today, try to remember what you really liked. What parts were the most fun? What do you think you could do to make it even better for everyone next year? This is your chance to take charge and make something special for the school.

We will value "Purpose" and "Ownership" for you
