## Grade 8 English

Hello! Today I'd like to introduce the outline of the English course for grade 8.

Each week, students will have four English classes, generally divided into three lesson types:

### English Modules

(Monday & Thursday - Mr. Oliver & Ms. Cherry)

In this lesson students will focus on improving key English skills such as reading, speaking and grammar through short modular activities.

### English Team Inquiry

(Tuesday - Mr. Oliver)

Previously English Project, the goal of English Team Inquiry is to use English in context. This year's project will all follow the school's theme of 'becoming global citizens'.

### English Test Preparation

(Wednesday - Ms. Yoshie & Mr. Oliver)

This lesson is for teaching the skills required to pass English tests, specifically Eiken and high school entrance exams.

The most important part of learning a language is time investment. Effective learning techniques help you use your time efficiently, but ultimately, mastering English requires consistent practice.

The effort you put into small things outside of class - like writing your English diary and doing the morning and closing meetings in English - will really add up! Please make the most of the huge amount of English support available to you this year.

Mr. Oliver
