Making Steady Progress!

It has already been a month since our last report and our G5 students have done so much already! From weekly spelling tests and mini book reports, to using adjectives to describe the world around us.

In English Team Inquiry, students investigated 7 unique habitats, Aquatic and Terrestrial in nature. In doing so, everyone researched what kinds of animals inhabit these special regions. Does your child prefer the hot and dry desert habitat, or perhaps the icy and cool Arctic? Check in with them to see what they think :-)

English Animal Karuta!

In P.E. class, the students have been training their bodies and minds to achieve their best on the National Fitness Test! This incorporates a variety of challenges that range from the 50 meter dash to the softball throw as well as the grip meter

Softball Throwing Challenge

and shuttle run. Little by little, the G5 students have shown that practice makes perfect and challenges can be successful with enough persistence.

Until next time, as always, thank you for all your support and let's Strive for Five! \ (^~^) /
