Let's roll~!

## Let's roll~!

In P.E. this month, our focus is on mat exercises. Students are discovering the remarkable things their bodies can achieve through practice. With a strong emphasis on safety, we are encouraging them to try various techniques, such as forward and backward rolls. Additionally, students are using their ICT skills to record their movements, allowing them to track their progress over time. We will continue to support them closely to ensure they exercise safely while experiencing the joy of physical growth.
