Practice

This week we had three important practice events!

Since you've done the earthquake drill many times, Ms. Miyake suggested I talk about it in English. I shared my experiences living in Miyagi to explain why these drills are so important. Even though I spoke only in English about a difficult topic, I was happy to see everyone follow along and take it seriously! I hope we never have to evacuate for real, but I'm glad you all know exactly what to do.

On Thursday, you also had the Aichi prefectural mock exams for Japanese, Math, and English. Long tests can be tiring, but I hope you tried your best! Please make the best use of your time before the real exam to keep improving.

Finally, I watched your Japanese project rehearsal. It's been a while since I saw the whole play, and I was really impressed with how much it has improved! I'm happy everyone is having fun, trying their best, and working so well together.
